

Screen CanterburyNZ Production Grant

Advisory Panel

Members of the Screen CanterburyNZ Production Grant Advisory Panel have been chosen for their production experience and/or industry expertise. Each round of funding will have a panel made up of a short list of five people including one General Manager from ChristchurchNZ, one Mana Whenua representative, and three industry specialists.

A long list of panellists has been compiled, so that the three industry specialist places can be changed out every round as necessary. This is to ensure that panellists wishing to apply for the funding would be able to do so as well as providing plenty of options should any other conflict of interest arise.

The Long List of Advisory Panel members are:
