

Destination Analytics Report:

Prepared for Christchurch

January 2023

About this report:

Destination management planning requires real-time and actionable insights to inform strategy and measure success. This includes understanding visitors and how a destination delivers on visitor needs and expectations. TripTech data is collected from real-time passenger movements and actions which reflect actual visitation. When compared to tourism surveys and studies, the TripTech Destination Management Report equips tourism businesses with a monthly data-driven view of specialised passenger driven movement dashboards. The following pages include a breakdown of each in detail.

Total Visitors

For January 2023, Christchurch saw a total of 11,305 visitors which was an increase of 24% on the prior month, and an increase of 47% on the same time last year. An increase or decrease in visitor numbers can be due to changing seasons, travel restrictions or effective marketing campaigns in the region.

Overnight Stays

For January 2023, Christchurch saw a total of 5,653 overnight stays which is up 32% on the previous month, and up 59% on the same time last year. On average visitors stayed for 2.14 nights in the region which was up 3% on the previous month and down -6% on the same period last year. Longer overnight stays often occur during school or public holidays and during seasonal changes.

Country of Origin

The domestic market was made up of 3,544 visitors and accounted for 31 % of all visitors. There were 7,761 international visitors (69 %) with the top 3 countries being Germany (14.3 %), United Kingdom (10.9 %) and Australia (7.1 %)

About Triptech

TripTech (a THL & Jayco, Inc Company) is a travel technology company operating across Australia and New Zealand. Our apps include CamperMate and custom branded travel apps in multiple categories. These assets connect businesses to travellers to plan and book in-trip and the data generated enables comprehensive, real-time dashboards and reports on tourist movement. This powerful combination arms national and state tourism offices, local and regional councils, government, media agencies and brands with access to new audiences and real-time data on their travel patterns and behaviour.

At TripTech we've been analysing the travel movements of the independent traveller through our network of apps for 10+ years. This enables us to provide a unique perspective on travel prior to, and throughout the course of the pandemic, including what the domestic audience is searching for, where they are going, and in-trip travel behaviour.
